

Differently-abled “ Mithilesh” enabling Social Change

It has been rightly said that “Will power knows no obstacles”. In a small village called Bramhanbhedi of Block Ambagarh Chowki; Mithilesh , a 23 year old physically challenged boy can be found riding his Tri-cycle. He has become a great motivation behind making his village open defecation free (ODF). He rode around the village to different houses and requested people from each and every household to build toilets in their house. He's mute and deaf, so he used hand gestures to convey his message. He got many messages on Swachta painted at the back of his tricycle to spread awareness regarding the same. Now he has also been actively participating in various activities of Swachta Bharat Mission and wishes to keep spreading awareness on various social issues. Mithilesh and his Gram Panchayat members after having made their own gp odf have not only started working as "Swachhata Mitaaan" for other neighbouring gram panchayats triggering them all to become odf, rather they are also motivating villagers to opt for one of the two Insurance schemes- PMSBY n PMJJY

On 29th May 2015 , seeing his zeal and vigor, he was honored and awarded “Swachta Veer Samman” and a citation certificate by Honorable Chief Minister, Dr. Raman Singh for his endeavors.
