Issues or feedback received from states

1. Same mobile number can not be registered or use in more then one role.

2. Need of Bilingual (Hindi, English) features in the app for easy understanding of questionnaires text.

3. Zero value not allowed in many cases like in Gujarat State, most of the villages had built HHs level soak pits and few villages had built the community soak pits without the drainage system. Zero (0) value in this field not accepted by app .

4. Increase the number of community assets for SLWM entry also up to 50 per village

Features List which include in new build version 2.4

- Now Same mobile number can be registered or use in more then one role.
- Bilingual (Hindi and English) translation of labels are added throw toggle functionality.
- Zero (0) value allows in any component abstract value.
- Max value allows for the following components
- Community Compost Pits- 50
- Community Bio Gas plants – under other schemes –50
- Vehicles for collection & transportation of waste– 99
- Community Soak Pits/Leach Pits/Magic Pits–50

CSC Module –Current workflow

1 · Enter Physical Progress using Module [C10]

2 · Only approved physical progress reported CSCs are geo-tagged using ODF Plus Baseline App

3 · Enter Financial Progress using Module [C 10]

▸ In this scenario there is a gap in between physical progress and geo tagging which increase instantly day by day

Proposed CSC workflow

1
- Enter Physical Progress along with Geo tagging at one go using MIS – Phase II App

2
- Enter Financial Progress using Module [C 10]
