FAQs from States

- Villages having more HHs as prescribed (double if <500 and 1.5 times if>500)
- CSC still constructing only from SBM funds (2 Lakhs)
- How to capture image in case of Institutions, Aganwadis, Panchayat ghars & School
- IEC messages will be captured again if uploaded earlier (previous years)
- HH data to be captured for individual SLWM assets if available in village
- Prioritize the entries of villages already declared ODF Plus

General Guidelines for SBM 2.0 App and IMIS

- Allocate maximum 10 villages at a time

- Download new version of app only after uploading all pending data

- Reports are available in SBM-II MIS under state/districts login

- There will be only one level approval (district level only)

- Upload the CSC image after completion only

- Upload image of each assets (without showing image it will not allow booking)

- Solid and liquid waste estimations to be explained properly to field team members during trainings

IMIS – Key issues and concerns

- Complete non-geotagged toilet images – constructed under SBM-I
- Finish pending booking, if amount is not booked against toilet constructed under SBM program
- Approve all unapproved images
